Techin & Toolin 

2020 Corvette: Here Are The Five Wheel Choices

By Francisco Cruz – GM Authority— Aug 23, 2019

Chevy's all-new 2020 Corvette will initially offer five wheel options, comprised of one standard wheel and four available wheels. GM Authority has compiled a comprehensive guide to 2020 Corvette wheels, complete with pictures, availability info, and other details for your browsing and shopping pleasure.

All five 2020 Corvette wheel options are made of aluminum, feature a staggered 19-inch front and 20-inch rear setup and are 8.5 inches wide, while varying in design and finish.

In addition, wheel availability is the same across 1LT, 2LT, and 3LT models, meaning each trim level receives the same standard wheel – the bright silver-painted Q8P. One of the five sets (5DF) is a Genuine Corvette Accessory, thus they are included as a second set of wheels when purchased. All 2020 Corvette wheels available from the factory are shown below.

The table below lists the 5 sets of 2020 Corvette wheels, along

with the corresponding RPO Codes, diameters, widths, finishes, and trim level availability.

RPO Code	Material	Diameter (inches)	Width (inches)	Finish	Trim Level Availability
Q8P	Aluminum	19 Front, 20Rear	8.5	Bright Silver-painted	1LT,2LT,3LT
QEQ	Aluminum	19 Front, 20 Rear	8.5	Carbon Flash-painted with machined edge	1LT,2LT,3LT
QES	Aluminum	19 Front, 20 Rear	8.5	Machined-face and Sterling Silver-painted	1LT,2LT,3LT
QET	Aluminum	19 Front, 20 Rear	8.5	Machined-face and Spectra Gray-painted	1LT,2LT,3LT
5DF	Aluminum	19 Front, 20 Rear	8.5	Black-painted	1LT,2LT,3LT

2020 Chevrolet Corvette Wheel Availability

It's also worth noting that more wheels might be added to the lineup in the near future, either for the 2020 or subsequent model years.

Either way, there are several attractive 2020 Corvette wheel choices to choose from, straight from the factory.
